

August 14, 2018 - Tuesday

| | |
|--|--|
| 08:45-09:00 | COLLOQUIUM 1 |
| 09:00-09:15 | |
| 09:15-09:30 | |
| 09:30-09:45 | |
| 09:45-10:00 | |
| 10:00-10:15 | |
| 10:15-10:30 | |
| 10:30-11:00 | Coffee Break / Poster Presentations |
| Chair: Dr. Bart Panis (Belgium) and Prof. Dr. Deepa H. Dwivedi (India) | |
| Plant Genetic Diversity, Conservation and Use; Crop Wild Relatives and Native Species | |
| 11:00-11:15 | Dr. Sarada Krishnan Role of U. S. Department of Agriculture's National Genetic Resources Advisory Council (NGRAC) in Providing Strategic Recommendations for Strengthening National Genetic Resources Conservation and Use |
| 11:15-11:30 | Dr. Maria Teresa Gonzalez-Arno Effect of different dehydration conditions on osmolyte accumulation, thermal events and survival of vanilla shoo-tips following droplet-vitrification approach |
| 11:30-11:45 | Dr. Sandhya Gupta Diversity, conservation and use of underutilized and minor fruits in India: An overview |
| 11:45-12:00 | Dr. Svetlana Levchenko Genome evolution and genetic diversity of grapes |
| 12:00-12:15 | Merve Arefe YIGIT Genetic variation and in vitro regeneration of wild pear <i>Pyrus elaeagrifolia</i> genotypes collected from different part of Turkey |
| 12:15-12:30 | Dr. Karin Hannweg Induced polyploidy alters <i>Plectranthus esculentus</i> plant morphology and response to environment |
| 12:30-14:00 | Lunch / Poster Presentations |
| Chairs: Prof. Dr. Yuanwen Teng (China) and Dr. Sandhya Gupta (India) | |
| Plant Genetic Diversity, Conservation and Use; Crop Wild Relatives and Native Species | |
| 14:00-14:15 | Prof. Dr. Ferdinando Branca Diversity, Uses and Conservation Strategies for the Brassica oleracea complex species in Europe |

| | |
|---|--|
| 14:15-14:30 | Dr. Juan Guillermo Cruz-Castillo Fruit quality assessment and oil extraction of some mature wild trees of <i>Persea schiedeana</i> Nees grown in Mexico |
| 14:30-14:45 | Ming Sun <i>Chrysanthemum repens</i> , a rare new species of the Genus <i>Chrysanthemum</i> L. from China |
| 14:45-15:00 | Dr. Seyfullah Binbir Genetic Diversity in Tomato (<i>Solanum lycopersicum</i> L.) Genetic Resources Collected From The Aegean Region as Revealed by Agromorfological Traits |
| 15:00-15:15 | Dr. Salam Ayoub Morphological evaluation and oil quality aspects of Jordanian olive cultivars |
| 15:15-15:30 | Dr. Muhammad Nafees Evaluation of Morphological and Molecular Diversity in Wild and Cultivated Pomegranate Germplasm of Pakistan |
| 15:30-16:00 | Coffee Break / Poster Presentations |
| Prof. Dr. Ferdinando Branca (Italy) and Dr. Kuldeep Singh (India) Genomic Resources, Characterisation and Conservation; Safe Movement of Germplasm | |
| 16:00-16:15 | Business Meeting of ISHS Commission Plant Genetic Resources (CMGR) |
| 16:15-16:30 | |
| 16:30-16:45 | Hulya Ilbi Determination of Genetic Variation Among Melon Genotypes Grown in Aegean Region by Morphologic and Molecular Markers |
| 16:45-17:00 | Dr. Mehmet Ramazan Bozhuyuk Molecular Characterization of Coruh Valley Pears by SSR |
| 17:00-17:15 | Mr. Anthony Bernard SSR genetic diversity assessment of French walnut (<i>Juglans</i> spp.) germplasm collection |
| 17:15-17:30 | Gülay Beşirli A Multi-Institutional Project for Breeding Lines/ Cultivars in Cool Climate Vegetables in Turkey |
| 17:30-17:45 | Prof. Dr. Cao Yufen Genetic diversity and relationship analysis of <i>Pyrus. ussuriensis</i> in China based on chloroplast DNA |
| 17:45-18:00 | Dr. Rajneesh Paliwal DARtseq SNP based Assessment of Genetic Diversity in IITA Cassava Collection |
| 18:00-18:15 | Dr. Vincent Umeh Papaya mealybug infestation in Nigeria: Incidence, spread, abundance and damage estimate on pawpaw |
| 18:15-18:30 | Mr. HALIL IBRAHIM OZTURK Genetic Diversity of Bean (<i>Phaseolus vulgaris</i> L.) Germplasm collected from Erzincan Province in Turkey Using iPBS Markers |
